Clyde, VIC -- open to relocate | 485 visa: full work rights to Jun 2028 | Driver licence | WWCC (Employee)

PROFESSIONAL SUMMARY

Computer Science (Data Science) graduate from Monash University (WAM 77.8, Distinction average) with a Graduate Diploma in Business Information Systems (GPA 6.25/7). Experienced in turning raw data into decisions: market and survey analysis presented to an executive committee, a 10-year weather analytics platform with predictive forecasting, and PostgreSQL-backed applications built for real clients. Skilled in SQL, Python, Power BI, Tableau and Excel, and comfortable explaining insights to non-technical stakeholders. Available immediately.

TECHNICAL SKILLS

Data & Analytics: SQL, Python (Pandas, NumPy, Matplotlib, Plotly, Scikit-learn), R, Microsoft Excel, data cleaning and validation, exploratory data analysis (EDA), statistical analysis

BI & Visualisation: Power BI, Tableau, Plotly, dashboard development, KPI tracking, data storytelling and stakeholder reporting

Databases & Modelling: PostgreSQL, MySQL, relational data modelling, ETL concepts, data transformation, data warehousing concepts

Predictive & AI: Time-series forecasting, predictive modelling, machine learning and deep learning fundamentals, OpenAI API, prompt engineering

Tools: Git/GitHub, Docker, FastAPI, REST APIs, Java, JavaScript/TypeScript, VS Code, Agile

EXPERIENCE

Data Analyst Intern -- Malaysia Australia Business Council (MABC) **Jun 2024 - Jul 2024**
Melbourne, VIC

- Conducted market research and competitor analysis that informed engagement strategy, increasing client engagement by 15%
- Designed and distributed targeted member surveys, reaching 80% of the membership base and building a structured dataset for analysis
- Synthesised research and survey findings into a data-driven presentation for the MABC Executive Committee, driving a 20% increase in strategic initiative adoption
- Delivered data-backed retention recommendations that contributed to a 5% increase in membership renewal rate

Freelance Full-Stack Developer (Remote, Casual) **Mar 2026 - Present**

- Designed relational PostgreSQL schemas and secure FastAPI REST APIs (JWT authentication, CRUD) for 3+ client applications, including an ecommerce site and a Mahjong management system
- Owned the full project lifecycle from requirements and UI/UX design through testing, deployment and maintenance, using Git and Agile practices
- Gathered client requirements and translated business needs into practical, maintainable data-driven features

IT Support Officer (Casual) -- Monash University **Nov 2025 - Present**
Clayton, VIC

- Resolved login, software, device and network issues in real time for 150+ students across multiple digital exam venues
- Logged and tracked 60+ technical incidents with full accuracy in a centralised system, supporting compliance and audit traceability
- Escalated complex incidents to senior IT staff per protocol while maintaining a high same-session resolution rate

PROJECTS

Interactive Visualisation of Spatial Data (Final Year Project) **Python, PostgreSQL, Plotly, Leaflet.js**

- Built an interactive web application visualising 10+ years of historical weather data (temperature, rainfall) across 50+ Australian locations
- Cleaned and validated raw meteorological data and co-designed the PostgreSQL database and back-end data pipeline for reliable, scalable performance
- Applied time-series predictive modelling (Scikit-learn) to forecast long-term temperature and rainfall trends, and built custom graph tools to explore correlations between variables

AI Kitchen Assistant **FastAPI, PostgreSQL, Docker, Next.js, OpenAI API**

- Engineered a full-stack AI recipe recommendation platform that turns available pantry ingredients into personalised recipes using LLMs and prompt engineering
- Built a containerised FastAPI/PostgreSQL back end with REST APIs for users, recipe generation and persistent data storage, and a responsive Next.js/TypeScript front end

EDUCATION

Graduate Diploma of Business Information Systems (Cyber Security) **Mar 2025 - Mar 2026**

Australian Institute of Higher Education, Melbourne

- GPA 6.25/7 (Distinction average) -- HD in Software Development and IS Applications in Business; D in Database Management Systems, Systems Analysis & Design, Business Process Management

Bachelor of Computer Science (Data Science) **Feb 2022 - Dec 2024**

Monash University, Melbourne

- WAM 77.8 (Distinction average) -- HD in Data Analytics, Data Visualisation, Deep Learning, Modelling for Data Analysis; D in Business Intelligence & Data Warehousing, Databases

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Data Analytics Job Simulation -- Deloitte Australia (via Forage), Aug 2025: practical tasks in data analysis and forensic technology

LEADERSHIP & COMMUNITY

Student Ambassador -- Monash University **Aug 2024 - Dec 2024**

- Responded to 100% of prospective student and parent inquiries on university policies and programs, and led campus tours
- Boosted event visibility by representing the university at student-run events
