Clyde, VIC -- open to relocate | 485 visa: full work rights to Jun 2028 | Driver licence | WWCC (Employee)

PROFESSIONAL SUMMARY

IT graduate (Bachelor of Computer Science, Monash University; Graduate Diploma in Business Information Systems -- Cyber Security) currently working as a casual IT Support Officer at Monash University, where I resolve login, software, device and network issues on the spot for students sitting high-stakes digital exams. I document every incident accurately, escalate by the book, and explain fixes in plain language. Strong foundations in networking, information security, databases and scripting, with a calm, customer-first approach. Available immediately.

TECHNICAL SKILLS

Technical Support: Hardware and software troubleshooting, login and account access issues, device compatibility, network connectivity, incident logging, triage and escalation

Networking & Security: Computer networks, operating systems, Active Directory (cyber security coursework, Monash and AIHE), information systems security, cybersecurity risk assessment, secure authentication (JWT)

Systems & Data: SQL, PostgreSQL, MySQL, Microsoft Excel, Power BI, systems analysis and design, business process management

Scripting & Tools: Python, JavaScript/TypeScript, Java, Git/GitHub, Docker, REST APIs, VS Code

Service Skills: Customer service, clear non-technical communication, working under time pressure, attention to detail, teamwork with IT and operational staff

EXPERIENCE

IT Support Officer (Casual) -- Monash University **Nov 2025 - Present**

Clayton, VIC

- Delivered on-site technical support to 150+ students across multiple exam venues during high-stakes digital examination periods, resolving login issues, software errors, device compatibility and network connectivity problems in real time
- Logged and tracked 60+ technical incidents with full accuracy in a centralised system, recording troubleshooting steps, outcomes and timestamps for compliance and audit traceability
- Escalated complex incidents to senior IT staff per established protocols while maintaining a high same-session resolution rate for issues handled independently
- Worked independently across multiple exam buildings, coordinating with invigilators and IT teams to deliver timely, reliable support

Freelance Full-Stack Developer (Remote, Casual) **Mar 2026 - Present**

- Built and deployed 3+ web applications for clients, handling testing, debugging, troubleshooting and ongoing maintenance after go-live
- Implemented secure JWT-based authentication and PostgreSQL databases behind FastAPI REST APIs, following Git and Agile practices

Data Analyst Intern -- Malaysia Australia Business Council (MABC) **Jun 2024 - Jul 2024**

Melbourne, VIC

- Designed and distributed member surveys reaching 80% of members, and analysed results alongside market and competitor research
- Presented data-driven findings to the Executive Committee, contributing to a 20% increase in strategic initiative adoption and a 5% lift in membership renewals

PROJECTS

AI Kitchen Assistant **FastAPI, PostgreSQL, Docker, Next.js, OpenAI API**

- Built and containerised (Docker) a full-stack AI recipe platform with REST APIs, user management and persistent storage, and a responsive Next.js/TypeScript front end
- Integrated OpenAI APIs and used AI-assisted development tools to speed up prototyping, debugging and code quality checks

Interactive Visualisation of Spatial Data (Final Year Project) **Python, PostgreSQL, Leaflet.js**

- Co-designed the PostgreSQL database and back-end pipeline for a web app visualising 10+ years of weather data across 50+ Australian locations, including data cleaning and validation
- Applied time-series predictive modelling (Scikit-learn) to forecast long-term temperature and rainfall trends

EDUCATION

Graduate Diploma of Business Information Systems (Cyber Security) **Mar 2025 - Mar 2026**

Australian Institute of Higher Education, Melbourne

- GPA 6.25/7 (Distinction average) -- D in Information Systems Security, Cybersecurity Risk Assessment & Strategies, Database Management Systems, Systems Analysis & Design

Bachelor of Computer Science (Data Science) **Feb 2022 - Dec 2024**

Monash University, Melbourne

- WAM 77.8 (Distinction average) -- HD in Computer Networks, Intro to Computer Systems, Networks & Security, IT Professional Practice & Ethics; D in Introduction to Cyber Security, Databases

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Data Analytics Job Simulation -- Deloitte Australia (via Forage), Aug 2025: practical tasks in data analysis and forensic technology

LEADERSHIP & COMMUNITY

Student Ambassador -- Monash University **Aug 2024 - Dec 2024**

- Responded to 100% of student and parent inquiries on university policies, procedures and programs, identifying needs and directing people to the right resources
- Led engaging campus tours for prospective students and parents
